Dear Mr Man Soo,

Thank you very much for the Scientific documentation which you kindly sent to me dated February 6th.

I have been reading it with great interest, but, as you must realize, I am now in my 97th year and everything takes me so much longer.

While I still hold the same views about the problem and sympathise with you, I doubt if there is anything further I can do.

Kindest regards to you and to your brother Edgard.

Yours truly

David Plenderleith
